

Your Honor

I'm writing this letter because I have chronic problems that causes shortage of breath. I'm also dealing with high blood pressure and also high cholesterol. I can't practice social distance here in prison. The coronavirus is in full affect here. Due to that my life is in danger. We have 70 cases here so far. I'm in a big threat right now. What I'm asking for is to be placed on home confinement. I have done almost a 100 percent of my time. With my halfway house that would leave me with 10 months left. My mom needs me at home to help her out. I'm all she have in this world left. I do everything that I suppose to do in here. I'm asking for home confinement do to saving my life from the virus.

Thank You
